Summary

Data Scientist with just under 2 years of hands-on experience delivering production-level ML solutions. Expert in forecasting, automation, and dashboarding—enhanced forecast accuracy by 15%, reduced reporting time by 10 hrs/week, and boosted customer campaign engagement by 7%. Communicates across teams to align technical insights with strategic goals.

Skills

Core	Python, SQL, pandas, scikit-learn, PyTorch
Data Tools	Docker, Data Visualization (Tableau/Power BI), Git, Jupyter
Supplementary	R, Bash, LaTeX, Linux

Professional Experience

Aug 2023 – Present — **Data Scientist**, *Acme Analytics Ltd.*, Springfield, Country.

- Developed and deployed an ML-based sales forecasting model, improving request planning accuracy by 15% and reducing overstocks by 8%.
- Automated ETL and reporting processes using Python and SQL, saving 10 hrs/week and enabling daily dashboard refresh.
- Designed customer segmentation analysis that supported targeted campaigns, yielding a 7% engagement increase and a 3% revenue lift.

Jul 2022 – Jul 2023 — **Data Science Intern**, *Acme Analytics Ltd.*, Springfield, Country.

- Built interactive Tableau dashboards for leadership, enabling daily KPI monitoring with auto-refresh.
- Led data preprocessing and feature engineering, reducing model iteration times by 20% and improving reliability.
- Conducted exploratory analysis for new product lines, informing go-to-market strategies and priorities.

Education

2020 – 2022 — **MSc in Data Science**, *University of Springfield*, Springfield, Country, *Thesis:* "ML Methods for Retail Demand Forecasting" — achieved 10% MAE improvement over baseline models..

2016 – 2020 — **BSc in Computer Science**, *University of Springfield*, Springfield, Country.

Projects

Sales-Forecaster Toolkit	Built and open-sourced a PyTorch-based demand forecasting pipeline; over 500 downloads; achieved ~10% MAE improvement vs baseline.
Kaggle Churn Predictor	Top 10% finish in churn prediction challenge using ensemble techniques—ROC-AUC improved from 0.78 to 0.85.

Languages

English	C2 (native-level fluency)
German	B1 (intermediate working proficiency)

French A2 (basic conversational)
